STATINTL

Your letter of 27 November to Mr. Bush has been forwarded to this office for reply.

While your offer to be of further service is appreciated, I should make it clear at the beginning that this Agency, in agreement with the Peace Corps, cannot accommodate, nor has it ever accommodated, the type of arrangement you propose. Historically, the Peace Corps has studiously maintained the integrity of its mission and will not accept service, under any circumstances, from those who have been involved with foreign intelligence activities. As you can appreciate, this is a broad policy and is not restricted to service with this organization. I suggest that you may wish to talk with your superiors who, I am sure, will reaffirm the need for you to dedicate yourself entirely to the Peace Corps activity during your service with them.

I might add that, per our agreement with the Peace Corps, we will not consider for employment those who have served with the Peace Corps until a minimum of five years has elapsed since termination of such service.

Sincerely,

(signed) F. W. M. Janney
